DETAILED ACTION

Information Disclosure Statement

1. The IDS filed on June 21, 2005 is hereby acknowledged and has been placed of record.

Please find attached a signed and initialed copy of the PTO 1449.

Minor Claim Suggestions By Examiner

2. The following change(s) are recommended to improve clarity of the claims. The claims have been examined on the merits including the suggested changes below.

In claim 1, on line 15, --a-- should be inserted between “with” and “tubular”

In claim 2, on line 2, “centring” should be replaced with --centering--

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

4. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims appear to be a direct translation of the claims presented in foreign application No. RM2003A000055, to which the instant application claims priority, and as such, the claims generally lack clarity to the point of being indefinite. For example:

Art Unit: 3752

- In claim 1, on lines 5-7, the recitation, “surrounding the channel for the liquid and merging into said mixing chamber formed by coupling with a terminal element” is unclear. What element is the terminal member coupling with?
- Also, in claim 1, on lines 7-8, it is unclear what element is “provided with an orifice”.
- Also in claim 1, on lines 19-20, the recitation, “externally coaxial to said tubular element being integrally formed a sleeve provided with an abutment” is generally unclear.

The above noted informalities are merely exemplary and are not to be taken as an exhaustive list of all such instances. Therefore, Applicant should review the claims in their entirety for compliance with 35 U.S.C. § 112, second paragraph. The claims have been examined in view of the prior art, as best understood by the Examiner.

Allowable Subject Matter

5. Claims 1-6 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US Patents to McKinnon, Albert et al., Szczepanski, Callahan et al., Delaney, Jr., Schultz et al., and Schultz, are cited as of interest.

Art Unit: 3752
